## Time Log (204B1)

Front View

### Features:

- The Time Log is a companion unit for JEI 804A Communications Recorder.
- Supports up to 10 recorders.
- It produces and reads time codes for time verification of recorded conversations.
- The Time Log produces time codes that are automatically injected on the Tape.
- Date shown in 3-digit Julian calendar format.
- Times are shown in 24-hour military format.
- Rechargeable "Ni-Cad" battery provides power for time-keeping during power interruptions.
- A key operated switch provides easy time setting and prevents adjusting of time by unauthorized personnel. (Required for use in court)
